

Holy Satsang with the Master

July 17, 1985 - Yogi Gupta returns from India!

During his Satsang lecture, Yogi Gupta described some of the benefits of the neem tree. Neem cures cancer. Regular brushing of the teeth with neem sticks is very common in India and prevents cancer. Neem is a strong antiseptic. Neem tea is used on open wounds and sores.

Neem Leaves Vrata:

**OM MAHA DEVA AYA NAMAH
SIVA SANKARA AYA NAMAH**

This vrata is observed on the last day of the dark moon fortnight. It multiplies many times the benefits of japa, tapa, asana, pranayama, meditation, satsang, charity and moderation in diet. The restricted diet leaves energy to tune into the cosmic forces. On this day, one should go to a solitary place. Eat light food in the evening.

People born on the first day of the bright moon fortnight naturally grow and succeed all their life without effort. They have deserved their good fortune from before. The sun was in the third step of Asleka mansion.
